

RECESS | letter of agreement

Hide those ugly wires!

EPI is offering for a **limited time**, a special deal for MEi Condo owners on the installation of a recess mount housing which will fit any size flat panel from 37 to 65 inches weighing up to 200 lbs.

Benefits:

- Display “floats” on the wall with no visible means of support
- Cleans up your wall from unsightly wires
- Protect your TV investment against dangerous voltage surge and spikes
- Includes EPI installed, hospital grade, surge protection with audible alarm
- Many options for mounting brackets specific to your display¹
- Mount options allow you to swivel and tilt your display
- Professional install of blocking and framing to support up to 200 lbs.
- Hide the wires from your TV set top box by mounting it in recessed housing²
- Compatible with EPI Smart Home Touch Panel solution

¹ Price does not include flat panel display, mounting arm, or installation of flat panel display.

Call or email us with your display manufacturer and model number for a quote on your mount

² To be confirmed by Clearvision Technology

³ Offer no longer valid when sheet rocking commences. Price does not include Florida state sales tax.
