

# iLUME | lighting management made easy

## Simple, elegant lighting control

Designed specifically for MEi owners, iLUME combines world class technology, with high class style. EPI system designers have created a simple one touch solution to turn on or off groups of lights, and set them to the perfect lighting level.

### iLUME Benefits:

- Save on electricity
- Incredibly easy to use
- Elegant designer style controls
- Simple one touch scene lighting
- Longer lamp life through smart dimming
- Integrates with SOLA, EPI's shading package
- Compatible with EPI - Smart Home Touch Panel solution
- Can be controlled through Internet Explorer web browser
- Provide the right amount of light - where and when it's needed !

Entry Foyer: Designer keypad

### A sampling of our custom scenes include:

**"HOME"** Press HOME to quickly light up the entry foyer, grand room, and kitchen to a bright cheerful scene.

**"EVENING"** Dim the kitchen and hall. emphasize great room lights. Perfect for watching the sunset, reading a book or for watching movies.

**"COOKIES"** From the bedroom no more fumbling for all the switches leading to that late night snack, let COOKIES light the way.

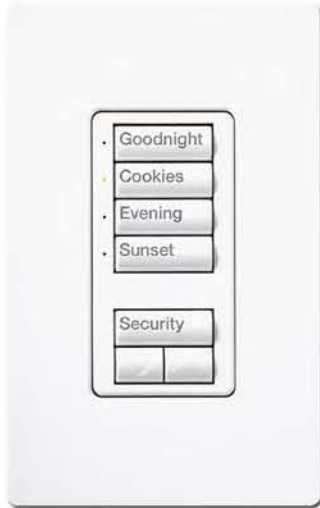

**"ENTERTAIN"** Dim the lights, highlight the art; create the perfect atmosphere for dining and entertainment. (You supply the candles)

**"AWAY"** Never leave the lights on again. press AWAY and all the connected smart light dimmers gently fade to off.

**"GOODNIGHT"** From the bedroom a simple tap of GOODNIGHT will guarantee your never leaving the house lights on again.
